### SKINNY DIP!

If you want to be pampered but get chills (and not the good kind!) at the idea of a stranger's hands on your body, the brand-new Zen Water Experience at **Skin Deep** spa in Huntington Beach is just the thing. Owner Deborah Woods created her own water sanctuary, a quintet of deluxe cave-like stations where you get in touch with yourself (literally!) and the spiritual, mental and physical healing powers of water. A Zen guide instructs you in each space as you move step-by-step through the ritual: cleansing, caking on detoxifying and hydrating Canada-imported mud, steaming, rinsing and finally soaking in warm, oxygenated and mineralized water. But if you're not the DIY type, never fear. Skin Deep offers a full array of luxe, traditional spa treatments, too. 7862 Warner Ave., Ste. 101, Huntington Beach. 714.841.3313 or [www.e-skindeep.com](http://www.e-skindeep.com).
